PROFESSIONAL SUMMARY

Frontend developer with 2+ years of experience building responsive, performance-focused interfaces with React, Tailwind CSS and Redux. Built the front end of a Web3 play-to-earn gaming platform with an international remote team, and modernized a company's WordPress theme workflow by migrating it from Bootstrap to Tailwind CSS. Looking to grow within a collaborative, large-scale product team.

WORK EXPERIENCE

React Developer

08/2024 – 12/2024

Captain Hook (P2E) · Freelance · Remote — Dubai, UAE

- Developed and deployed the project's front-end using React.js and Tailwind CSS, with hosting managed via Vercel.
- Designed and implemented modern, engaging UI animations to enhance the overall gaming experience.
- Collaborated with an international team of blockchain, game development, and marketing specialists in a fully remote environment.
- Contributed to building a Web3 gaming platform on Binance Smart Chain (BSC), integrating P2E mechanics and a token-based economy (\$CAPT).

White Paper: captain-hook.gitbook.io/white-paper

Frontend Developer

07/2022 – 03/2024

Riraco · Hybrid — Tehran, Iran

- Set up and maintained testing environments to ensure code quality and the stable delivery of project changes.
- Established Git repositories and enforced a Git Flow branching strategy for structured team collaboration.
- Migrated WordPress themes from Bootstrap to Tailwind CSS, resulting in more modern designs and a faster design workflow.
- Designed and developed a custom Tailwind CSS theme aligned with the company's branding guidelines.
- Audited and optimized HTML, CSS, and JavaScript across pre-built websites to improve performance and maintainability.

Frontend Intern

05/2022 – 07/2022

Riraco · Hybrid — Tehran, Iran

- Integrated Bootstrap into WordPress themes to improve visual design and overall user experience.
- Identified and resolved HTML, CSS, and JavaScript bugs across 10+ developed themes within one month.
- Built a custom order-price calculator app, enabling users to see their total payment after configuring their order.
- Refactored projects using Sass to establish a cleaner code structure and boost development productivity.

TECHNICAL SKILLS

Core	HTML · CSS · JavaScript · React.js · Next.js · Redux
Styling	Tailwind CSS · Bootstrap · Responsive Design · Material UI · Styled Components
Tools	Git · GitHub · HTTP & RESTful APIs · Vercel · Dependency Management
Familiar With	TypeScript · shadcn

PROJECTS

Blueberry — E-Commerce Web App

github.com/JavadRafiei/blueberry

A fully-featured e-commerce app built with React 19 and Redux Toolkit — product listing with pagination and price-range filtering, dynamic cart, and smooth UI powered by PrimeReact and Swiper. Client-side navigation via React Router; mock REST API via JSON Server.

Stack: React 19 · Redux Toolkit · React Router v7 · Tailwind CSS v4 · PrimeReact · Swiper · SweetAlert2 · JSON Server

Personal Portfolio Website

Live: javadrafiei.ir | github.com/JavadRafiei/personal-website

Personal portfolio built with Next.js 16, React 19 and Tailwind CSS v4. Multilingual (next-intl), with forms validated by React Hook Form and Zod, MongoDB for data storage, and deployment on Vercel.

Stack: Next.js 16 · React 19 · Tailwind CSS v4 · next-intl · React Hook Form · Zod · MongoDB · Phosphor Icons · Vercel
